SUMMARY

Dynamic software engineer with 4 years of experience in developing scalable web and mobile applications using Symfony, Laravel, and AWS services. Proven success in API development and performance monitoring, leading projects that enhance user experience and operational efficiency. Skilled in collaborating with cross-functional teams to deliver innovative solutions and optimize application performance. Committed to continuous learning and high-quality code, driving mission-focused outcomes through proactive troubleshooting.

EXPERIENCE 4 YEARS

Senior Software Engineer

📅 Nov 2021 - Present

Coeus Solutions | Lahore, Pakistan

- Developed scalable web and mobile applications with Symfony and Laravel, boosting system performance and user engagement.
- Implemented OAuth 2.0 and built robust RESTful APIs with PHP, streamlining authentication processes.
- Leveraged AWS services (SQS, S3, RDS) and automated deployments with Jenkins, achieving a 30% reduction in deployment time.
- Managed development environments using Docker and Vagrant, ensuring consistent and efficient workflows.
- Monitored application performance with Bugsnag and Grafana, resulting in a 25% decrease in critical issues.
- Designed a distributed messaging system using AWS SQS, enhancing microservices communication.
- Facilitated client stand-ups and demos to ensure project alignment and timely updates.

Senior PHP Developer

📅 May 2021 - Nov 2021

Prismatic Technologies | Lahore, Pakistan

- Led CRM projects, delivering tailored solutions using Laravel (PHP) and various libraries, exceeding client expectations.
- Collaborated with stakeholders to define user requirements and project designs, improving project alignment and clarity.
- Conducted thorough testing and troubleshooting, ensuring high-quality deployments and reducing post-launch issues.
- Successfully delivered over 3 projects on time, achieving a 95% client satisfaction rate.

Laravel Developer

📅 Aug 2020 - May 2021

Ultra grow | Lahore, Pakistan

- Executed front-end and back-end development tasks for in-person orders, enhancing customer satisfaction through efficient service delivery.
- Collaborated with team members to resolve technical challenges, improving project workflows and team efficiency.

Web Developer

📅 Sep 2019 - Aug 2020

Nestersky | Lahore, Pakistan

- Designed and implemented site layouts and user interfaces using HTML, CSS, Bootstrap, JavaScript, and PHP, significantly enhancing user engagement.
- Validated and optimized code in Visual Studio Code, resolving issues to improve site performance and functionality.

EDUCATION

BSIT

 Sep 2016 - Aug 2020

University of Okara | Okara, Pakistan

- Secured 3.3 CGPA

HARD SKILLS

- **Programming Languages:** PHP | JavaScript | HTML | CSS
- **PHP Frameworks:** Laravel | Symfony
- **PHP CMS:** WordPress | Magento
- **Front-end Technologies:** JavaScript | jQuery | React | Bootstrap | Tailwind CSS
- **Databases:** MySQL | RDS
- **Version Control:** Git | GitHub | SVN
- **Web Services:** RESTful APIs
- **AWS Services:** EC2 | S3 | SQS | CloudWatch | Redis
- **Logging Tools:** Kibana | Grafana | Bugsnag
- **Virtualization Software:** Docker | Vagrant

SOFT SKILLS

Time Management | Problem-Solving | Troubleshooting | Testing and Debugging | Attention to Detail | Collaboration | Communication | Creative Thinking | Critical Thinking | Active Listening | Multitasking | Stress Management | Self-Motivation | Conflict Resolution | Teamwork | Leadership

PROJECTS

- **Smart Widgets (Symfony):** A platform for creating and managing interactive widgets across websites, enhancing user engagement and customization.
- **Feedback Engagement (Symfony):** Built a real-time system for collecting and analyzing customer feedback, improving service delivery and customer satisfaction.
- **Connect (Symfony):** A central application for user authentication across various microservices, streamlining access and enhancing security.
- **E-learning System (Laravel):** Invented an online course management system, facilitating quizzes and tracking student progress to improve learning outcomes.
- **E-commerce Platforms (Laravel):** Constructed multiple e-commerce websites, providing seamless online shopping experiences that increased sales and customer retention.
- **Society Management System (Core PHP):** Implemented a management system to handle society members, finances, and events, optimizing administrative efficiency.
- **Point of Sale System (Laravel):** Created a POS system for retail, managing sales, inventory, and customer interactions, leading to improved operational efficiency.
- **Event Management System (Laravel):** Established a platform for managing event bookings, attendees, and schedules, enhancing organization and customer service.
- **Gym Management System (Laravel):** Built a system for managing memberships, schedules, and fitness programs, improving user experience and operational workflow.

ACHIEVEMENTS

- Refined SQL queries and code flow, enhancing application performance by 80%.
- Improved code flow for quick performance, leading to a 30% increase in application speed.
- Recognized as 'Employee of the Month' for outstanding individual performance.
- Earned certifications from HackerRank and various online platforms.

LANGUAGES

- **English:** Professional working proficiency
- **Urdu:** Native or bilingual proficiency
